

Online Mixing at LoudBox Music

Information for uploading your files:

- I accept WAV or AIFF files at 44.1, 48, 88.2 and 96kHz in 16 or 24 bit.
- Upload only clearly named stereo or mono tracks without audio clipping.
- Provide only tracks that are consolidated or bounced from start of the song (0:00, bar 1, etc.) All tracks must be of the same duration!
- No DAW sessions.
- Please print/bounce all MIDI/Virtual instruments - only audio files accepted.
- Analog Tape Mixdown on demand. (Akai GX 630DB 1/4" Stereo)
- You're welcome to provide a rough mix of the song or as much written information as possible.

How it works:

After our first contact you will receive a mail with the link of our shared **Dropbox** folder. Make sure you have Dropbox installed on your computer! Once you have all your tracks bounced and correctly labeled, upload your files to the folder. It will be named as „Mix Session - *bandname/artist**“

It is also possible to send your files via **WeTransfer** (2 GB maximum): <https://www.wetransfer.com>

In most cases, I will have finished your song within 5 days and you will receive a sample clip as reference. The full song will be provided as AIFF or WAV file after receiving your payment. Please send a mail for the price list!

Online Mastering at LoudBox Music

- It is also possible to get your song mastered as well.
- Price is fixed rate per song. (please send a mail for the price list)
- You will receive AIFF/WAV, m4a and mp3 files.
- MP3 includes ID3-Tags (song title, artist, composer,...)
